

**Ice** — A trendy classic. Ice is the collection of seating for executive and managerial offices, also including a model suitable for meeting rooms and waiting rooms. Featuring a fine covering in black breathable mesh, Ice is outlined by an understated outer frame in tubular steel, available in chromed or gloss black finish. The armrests built into the structure are coordinated with the seat, with the possibility of top upholstery in three different finishes.

---

**CLASS FOR ANY NEED**

---

Ice is the collection that responds with a touch of class, to the needs of executive and manager offices, but also to the needs of meeting rooms and waiting areas. In fact, Ice is available in the executive version with high back, manager and meeting version with fixed gliders.

---

**THE MECHANICS OF COMFORT**

---

Ice executive and manager versions feature a dynamic tilt mechanism with central axis that allows adjusting the seat angle, lockable in work position, and the tilt tension.

---

**COMFORTABLE AND BREATHABLE**

---

In addition to the elegant shape, Ice is comfortable and breathable thanks to the seat and back upholstery in high-resistance flexible mesh.

Ice outer structure in steel tube is available chromed or painted in matt black, and upholstered with elegant final caps in chromed ABS. The armrests integrated in the seat match the structure and can be upholstered with a top combined to the mesh colour of the armchair.

Different types of bases and casters offer the possibility to choose the most suitable version for your needs.

**PCON.PLANNER**

It is possible to configurate our model Ice by using pCon.planner program for the design of 2D an 3D environment.

pCon.planner allows to design working solutions in a fast and intuitive way, creating "realistic" images with advanced features, with a considerable saving of time and resources.

It is easy to start using pCon.planner: after downloading the software in the proper page, it is possible to download pCon. catalog, the practical online catalogue of products ready to be set up according to anyone's need, and then include the products in the projects.

For more information on the use of pCon. planner and the access to the products of the SitLand's catalogues, please contact [com@sitland.com](mailto:com@sitland.com)

---

**WARRANTY**

Ice has 5 years warranty.
